HARMONY

This grade has a natural look where the share of heartwood adds a more distinct colour and structural graining variation between the individual staves. Medium sized knots and natural fine splits occur to some degree. Knots and other irregularities are factory filled with a one colour filler.

VARIATION

This grade has a rustic look where the share of heartwood adds a substantial colour and structural graining variation between the individual staves. Several small and large knots and natural fine splits occur. Knots and other irregularities are to the greatest extent possible factory filled with a one colour filler.

About the floor

Ash is one of the widespread European hardwood species and with its excellent strength properties, the elegant light appearance combined with the characteristic dark grain pattern, is very desirable as flooring for many different purposes. Slightly white toned by using the colour Nordic, a Scandinavian touch is added to the floor.

Junckers solid hardwood flooring is produced and categorized in accordance with EN 13629, EN 14342 and Junckers own factory standard. The floors are made exclusively from solid hardwood and the photographs illustrate the colour, knots and structural graining variation characteristic for the specific wood species and grade.

Each image shows the average appearance of the grade. It is normal to see a variation in appearance between individual boards, staves and floors produced and installed at differing times.

Up to 5% of the staves may contain features of the next style.

Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.

ASH NORDIC STRIPBOARD | GRADES

The actual colour on a wooden floor can vary from the colour shown in this style chart. This is due to the fact that colours are very difficult to reproduce online and in printed material. Junckers accepts no liability to discrepancies and we always recommend ordering a physical sample before placing an order.
