# JUNCKERS ARENA MASTER

A portable floor with excellent sport performance properties and outstanding flexibility.

## USE IT FOR SPORTING AND NON-SPORTING EVENTS

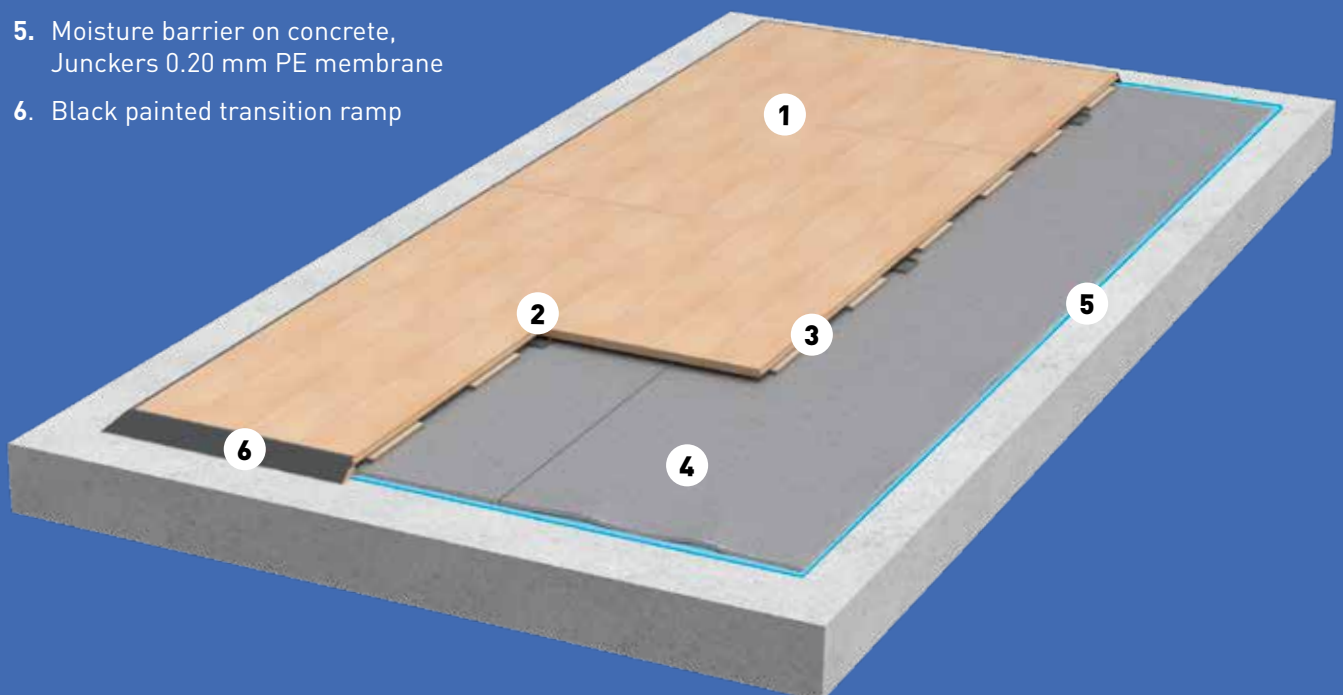

- International tournaments, which require special line-markings
- Concerts & Fairs
- Over turf and ice rinks

## THE PERFECT CHOICE WHEN A PORTABLE FLOOR FOR LONG TIME USE IS REQUIRED

Arena Master tolerates larger fluctuations in relative humidity and is therefore suitable for long term use.

### SYSTEM COMPONENTS

1. Floor panels.
  - Full size panel: 517.5 x 1800 mm, 0.93 m<sup>2</sup>
  - Half size panel: 517.5 x 900 mm, 0.47 m<sup>2</sup>
2. Assembly brackets
3. Plywood
4. Junckers 15 mm Sports Foam
5. Moisture barrier on concrete, Junckers 0.20 mm PE membrane
6. Black painted transition ramp

## INTERNATIONAL PORTABLE FLOOR REFERENCES

- FIBA Eurobasket 2017, 5 courts in 4 countries
- FIBA World Championships men U19, Cairo Egypt 2017
- African Basket League, Nigeria, Gabon 2017
- Euroleague Spain, FC Real Madrid, 2016
- Afrobasket 2015, Palais de Sport, Yaounde Cameroon
- Commonwealth Games 2014, Glasgow, United Kingdom
- Paralympics 2014, QE Park London United Kingdom
- Singapore Youth Olympics 2010, Singapore
- Eurobasket 2009, Spodek Hall, Katowice Poland
- Euroleague 2005, Olimpiyskiy Complex CSKA, Moscow Russia
- Eurobasket 2005, Belgrade Arena, Belgrade Serbia
- Olympic Games 2004, Athens Greece

# ASSEMBLY DETAILS

## LIGHT WEIGHT PANELS

The Arena Master Portable Sports Floor is based on 22 mm solid hardwood floorboards, prefabricated into light weight panels.

## STRENGTH AND DURABILITY

Underneath each floor panel is fitted four sheets of birch plywood, 12 mm thick. These give the panels a great deal of strength and durability. The panels are reinforced in each end with aluminum profiles.

## FAST AND EASY ASSEMBLY

Each floor panel is easily locked into position by means of factory fitted metal brackets.

## SAFE AND RELIABLE FLOOR PANEL CONNECTION

Lengthwise the panels have a tongue and groove connection. At ends the panels are joined using loose tongues.

## CORRECT RESILIENCE AND STABILITY

The panels are laid floating on an underlay of 15 mm foam. The intermediate layer of foam is required to provide correct shock absorption and resilience.

Don't use Sports Foam on top of turf. The panels are installed on a 0.20 mm moisture barrier only.

## A TRANSITION RAMP FORMS A STRONG EDGE

A supporting and protecting transition ramp forms a strong edge of the floor perimeter.

## CENTER ROW PANELS FOR FLEXIBLE INSTALLATION

For faster and more flexible installation ask for Junckers Center Row Panels. The metal brackets on each side of the panels make it possible to start installation from the centre of the floor and work in two directions.

## DISMANTLING AND STORAGE ARE EASY

Junckers custom designed storage carts make transportation and storage of the panels easy. The panels must be stored in the same relative humidity as when the floor is in use.

# FLOOR BOARD RANGE

## BEECH SYLVASPORT

A very popular and classic floor.  
Beautiful light coloured wood with a warm golden grain pattern.

**Surface:** Ultra matt or Silkmatt lacquered

## MAPLE

A light coloured floor with a very uniform grain pattern.

**Surface:** Ultra matt or Silkmatt lacquered

## EXCLUSIVE BENEFITS OF A JUNCKERS FLOOR

- Complete system control - Junckers subflooring, sports flooring, game line paint, and lacquer top coats are all developed, manufactured, quality controlled, and warranted by Junckers.
- Junckers produces only 100% solid hardwood, for a long life span and therefore no risk of veneer layers delaminating.
- Junckers beech flooring is press-dried, which improves hardness and dimensional stability.
- Junckers floors are pre-finished at our factory, allowing for quicker, and cleaner installations.

# LINE MARKING PAINT

## ONLY IMAGINATION SETS A LIMIT

A sports floor does not come alive until it has been given the colour and excitement of the sports that are played on it. Painted sports lines help to achieve this, and the clubs own logo adds unique personal style to the floor and adds to the audiences experience.

For this purpose Junckers manufactures its own range of line marking paints. Junckers HP SportsLine paint is tested and approved according to the European sport standard EN 14904. It is very hard-wearing and available in white, red, green, blue, yellow and black.

The colours can be mixed to create other colour shades and for big events such as Euro basket 2017, Junckers has developed several colours to match exactly the colour palette for this competition.
