

## STYLE CHART

Beech is a hardwood species characterised by being exceptionally hard-wearing and therefore very suitable for flooring. When beech is toned with the colour Twilight Grey the floor appears with a deep grey look adding a feeling of tranquillity and stability, especially in combination with stronger colours in different interior or commercial designs.

Junckers solid hardwood flooring is produced and categorized in accordance with EN 13629, EN 14342 and Junckers own factory standard.

The floors are made exclusively from solid hardwood and the photographs illustrate the colour, knots and structural graining variation characteristic for the specific wood species and grade. Each photograph shows the average appearance of the grade. It is normal to see a variation in appearance between individual boards, staves and floors produced and installed at differing times.

Up to 5% of the staves may contain features of the next style.

Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.

# 14 & 22 MM BEECH TWILIGHT GREY STRIPBOARD SOLID HARDWOOD FLOORING

# TECHNICAL INFORMATION

THICKNESS x WIDTH: 14/22 X 129 MM

## BEECH TWILIGHT GREY STRIPBOARD HARMONY

This grade has a natural look with more colour and structural graining variation between the individual staves. Medium sized knots and fine hair-line splits occur to some degree. Knots and other irregularities are factory filled with a one colour filler.
